

Environmental Statement

It is the aim of Bellewstown Golf Club to operate its course maintenance program with as much due care for the environment as possible.

This includes minimising the use of pesticides and chemicals through effective and pro active maintenance programs

A commitment to promoting a healthy environment by extensive tree planting, facilitating wildlife development by maintaining lakes, leaving areas un-mown and not spraying off ditches and water ways.

By operating a pro active recycling policy for plastic bottles, chemical containers and anything else that may be recycled on site or by another company: including batteries, plastic, tyres etc.

This document has been shown to all the staff members and is actively encouraged
